

GOLD RIBBONS

for childhood cancer awareness

Gold Ribbons for Childhood Cancer mission and goal is to let everyone know that kids get cancer too. We want to be a resource to families in the battle of cancer, hospitals, community members and anyone who has a heart to make a difference in the life of a child.

CHILDHOOD CANCER FACTS

- Each school day, 46 children are diagnosed with cancer.
- One in 330 children will develop cancer by age 20.
- Although the 5 year survival rate is steadily increasing, one quarter of children will die 5 years from the time of diagnosis.
- Cancer remains the number one disease killer of America's children - more than Cystic Fibrosis, Muscular Dystrophy, Asthma and AIDS combined.

"Being Aware Means You Care"

LAUGHTER IS MEDICINE FOR THE SOUL

I don't understand why Cupid was chosen to represent Valentine's Day. When I think about romance, the last thing on my mind is a short, chubby toddler coming at me with a weapon. ~Author Unknown

We are all a little weird and life's a little weird, and when we find someone whose weirdness is compatible with ours, we find up with them and fall in mutual weirdness and call it love. ~Author Unknown

ABOUT THE GOLD RIBBONS

Gold represents our children in these and other ways:

- It is a precious metal, as our children are precious;
- It is the flame of hope;
- It is the purity of our children's hearts.

Hundreds of thousands of gold ribbon pins have been distributed nationwide and around the world. The gold ribbon campaign has been embraced by everyone who is or has been affected by childhood cancer: families and friends of children with cancer, pediatric oncology treatment facilities, and national foundations and organizations.
